

**INDIAN INSTITUTE OF
TECHNOLOGY, HYDERABAD
(IITH)**

**DEPARTMENT OF LIBERAL
ARTS**

introduces

MASTERS IN DEVELOPMENT STUDIES

beginning August 2019

The Department of Liberal Arts at IITH is the first of its kind in India. Besides rigorously focusing on research and teaching across all the fields of Humanities and Social Sciences, the department also pushes its traditional disciplinary boundaries. Surpassing other institutions of national and global repute, the department engages with creative and performing arts through specialized courses that form its essential bulwark.

ABOUT DEVELOPMENT STUDIES PROGRAM

Through its interdisciplinary approach, the Development Studies program offers a plurality of ways in which the discourse of 'development' can be adapted to the ever changing fabric of human life. With courses offered in fields of Health, Gender, Media, Technology Studies, Economics, Literary Theory, Disease Management, and Research Methodology, and with dedicated internship and dissertation components, this two-year full-time program offers students a formidable challenging platform from which to engage with contemporary research and professional practice in India and across the globe.
